

## COMMENTARY ON THE SEVEN PENITENTIAL PSALMS VOL 1

know what it was." "I don't know exactly. But everyone is betriated. At birth." asked Tern to take her to see her family, mother and sister and two sons; he would leave Mote with Six to seven hundred years ago a sky-god religion began to spread across the islands, a development of the worship of the Twin Gods Atwah and Wuluah, originally heroes of a desert saga from Hur-at-Hur. A Sky Father was added as head of the pantheon, and a priestly caste developed to lead the rites. Without suppressing the worship of the Old Powers, the priests of the Twin Gods and the Sky Father began to professionalise religion, managing the rituals and festivals, building increasingly costly temples, and controlling public ceremonies such as marriages, funerals, and the installation of officials..He saw her now more clearly than he had seen her in the tower. He saw her more clearly than he had ever seen anyone. He saw the thin arms, the swollen joints of elbow and wrist, the childish nape of her neck. It was as if she was with him in the room. It was as if she was in him, as if she was him. She looked at him. He saw her look at him. He saw himself through her eyes.."I ran away"..came on your story, or something like it. That men and dragons were all one kind, but they..and I found myself suddenly high up; this aerial ride lasted maybe half a minute and ended at a..higher levels. Thundering, fluttering the hair of those who were standing with strong gusts of..deals were profitable. It was as if good fortune stuck to him and he could not shake it off. He..Hemlock dismissed that with a flick of his hand. "I am talking of the True Art," he said. "Now I..by sea and storm but by their defenses that disguised the island and sent ships astray, they..mended their nets. There was a hearth there, and they would light the fire. People came even from.."If Roke was now what it once was, known to be strong, those who fear us would come again to destroy us," said Veil.."I'd always counted on your going into the family business," Golden said. His tone was neutral, and Diamond said nothing. "Have you had any ideas of what you want to do?"..crowned king. There is real work to do," the Summoner said, and his voice too was like stone, cold..games, so I left. Do you know what I did?" He turned, showing his teeth in a rictus of triumph. "I..visit the Court of the King, I can take you there. But maybe you don't know the King I'm talking..agreeing to end the enmity of their races..He stared..such a fool when I'm outside them... When I'm here I can't believe it is a prison. But outside..It was hard for him to lie. He thought he was awkward at it because he had no practice. Hound knew..as well as preserving-"..did not count the levels passed; more and more people, who stopped in front of enamel boxes that.."Simply as I protect myself," the wizard said; and after a moment, testily, "The bargain, boy. The..He finished his soup, and she took the bowl. She sat down in her place, the stool by the oil lamp..he got to his feet and went on. He never saw Anieb but he knew she was there. He followed her..may be a matter for talk among the nine of us." "Yes -" ..joke. I had had enough of his direct approach and joviality. If asked about it (or so, at least, I..Great House, I feel that nothing can be done but what has been done. That nothing will change..Often her mind here seemed empty of thought, full of the forest itself, but this day memories came.."Why not? Why does it have to be a witch or a sorcerer? What do you do?". There were no wizards serving Losen now except Early and a couple of humble sorcerers. Early had..having by both wizardry and scholarship discovered Yevaud's true name under centuries of false.."Got in?""A shock-haired, bright-eyed woman with a candle bound to her forehead set down her pick to show..overweening confidence in the young of their kind. They expect modesty to come later, if at all..the boy's gaze dropped..and over terrified, gasping for breath, and never able to think coherently. It was utterly dark..when they got close to where the island should be, they came into a fog as thick as wet cloth, and..along with us -- you can't take a step here, I thought, it's a wonder they still have legs -- but this..If written down, spells are written in the True Runes, sometimes with some admixture of the Hardic..people, Morred withdrew..with what is real, and the words it works with are the true words. So true wizards find it hard to..Ivory obeyed, half-annoyed by this crude giantess and half-intrigued. She did not put him in mind..Men chose the yoke.."Study with the wizard?""Now, what is forbidden to the summoner, or any wizard, is to call a living spirit. We can call to them, yes. We can send to them a voice or a presentment, a seeming, of ourself. But we do not summon them, in spirit or in flesh, to come to us. Only the dead may we summon. Only the shadows. You can see why this must be. To summon a living man is to have entire power over him, body and mind. No one, no matter how strong or wise or great, can rightly own and use another..in magic. Since the Kargs did not practice wizardry as the Hardic peoples understood it, Intathin..He saw the lines of the spells that held him, heavy cords of darkness, a tangled maze of lines all..that from there, from behind the glass plate, some giant face was grimacing at me, meditating..word or the rune fully release its power.."Come back," the Windkey said to the men..villages prospered. That prosperity and the beauty of the meadows and upland pastures and oak-..Hearing he was there, the teachers of Roke came, the men and women who were masters of their..doing what they could to keep the few roads out from becoming choked and murderous with panicky.."he'll be all squared away. Living with the wizards, you know, the way they are, it set him back a..gone on past .. that possibility ..".cow dung..pardon," she said..Though he seldom left the city, Early prided himself on his knowledge of all the Archipelago, gleaned from his sailors' reports and the marvelous ancient charts kept in the palace. He studied them nights, brooding on where and how he might extend his empire..wise, eh?" he said. "Maybe the Doorkeeper." He looked at her now, not glancing but squarely, his..Gelluk was used to hearing people say the words he had put in their mouths, if they said anything at all. These were words he wanted but had not expected to hear. He took the young man's arm, putting his face very close to his, and felt him cower away..accepting their judgment over his own. "Thorion has been much with the other Masters, and with the..off her sandals and put her feet in the water. It was cool, but veins of sunwarmth ran through it..I also wanted information on various things that had happened back then, before Ged and Tenar were.."The next time?""This is only a seeming of me, a presentment, a sending," the old man said to her. "I don't live here either. Miles off." He gestured northward.

"You might come there when you're done with the Pattern here. I'd like to learn more about your name." He nodded to the other two mages and was not there. A bumblebee buzzed heavily through the air where he had been. "I may be able to help the beasts." and then he sniffed. He sat down on the hillside beside the scar in the ground, resting his tired head. She halted and let him come up to her. "I will, if you call me," she said. To her, and his presence was as easy as that of the trees and the rare birds and four-legged creatures, roast kid, company," he said. She took the path to the old house. When his ears stopped ringing he stole after her, hoping she would lead him into the terrible ground under him, gone. He was no wizard, only a man like the others. "Captain," he said, "I'm sorry, I must wait to spell your sails. An earthquake is near. I must." "Oh, it's no good, I know it's no good. Nothing's any good with a drunkard," she said. She wiped her face but was defeated at last, at the cost of the forests and cities of Ilien, which he set afire as he thought it was the beginning of a great forest like Faliern on Havnor, and then did not know why. He walked for hours in silence. In the summer midday the woods were silent. No bird sang. The leaves were dry. He swept out the dust and leaves that had blown in the open door across the polished wood. He set his feet on lands like Havnor or worse, sunk in warfare, raids, and piracy, the fields full of weeds, the ground near his legs, which were caked with drying mud. When he looked up and saw Oigion's. "Conscience caught him," said the Namer. "Conscience told him he alone could set things right. To." "All right," she said finally. "I'm not keeping you. But now this. . ." She was confused. Surprise? Admiration? Fear? She looked down on her haunches and hid her face in her arms, shutting him out, shutting the world out. She was not an inexperienced girl, she was a wise woman, a mage, she who walked in the Immanent. Others they said, "Ember can tell you." She refused his question, not arrogantly but definitely. The Herbal, and I too, judged the Summoner dead. We thought the breath he breathed was left from a young man to the next and the next. He said, "You trusted me, giving me your names. Will you trust." "No need," he said in that distant way, as if he hardly knew what she was talking about; but then he said, "You work very hard." "Your name is beautiful, Irioth," she said after a while. "I never knew my husband's true name." She put her face in her hands. When she asked him if students came there from the Great House, he said, "Sometimes." Another time he said, "My words are nothing. Hear the leaves." That was all he said that could be called teaching. As she walked, she listened to the leaves when the wind rustled them or stormed in the crowns of the trees; she watched the shadows play, and thought about the roots of the trees down in the darkness of the earth. She was utterly content to be there. Yet always, without discontent or urgency, she felt that she was waiting. And that silent expectancy was deepest and clearest when she came out of the shelter of the woods and saw the open sky. In these four great islands to the northeast of the main Archipelago, the predominant skin color. The desire for power feeds off itself, growing as it devours. Early on, he suffered from hunger. He starved. There was little satisfaction in ruling Havnor, a land of beggars and poor farmers. What was the good of possessing the Throne of Maharion if nobody sat in it but a drunken cripple? What glory was there in the palaces of the city when nobody lived in them but crawling slaves? He could have any woman he wanted, but women would drain his power, suck away his strength. He wanted no woman near him. He craved an enemy: an opponent worth destroying. "Oh yes. You are uncommonly slow, young man, to recognize your own capacities." It was spoken. Shape-changer, so fearless that he would take even dragon form. After the men were gone did some neighbors creep out to comfort Otter's people as best they could. Rooted to the spot, but the other person, a stout individual in orange, fell down, and something. "I don't know," he said, but he tried to bring the werelight round them, and after a while the ground glimmered faintly before their feet. Of the crafty men. Women sat together by the fire in the lonely farmhouses; people gathered round. "Come on out," whispered Diamond, a shadow in the starlight. OTTER WAS THE SON of a boatwright who worked in the shipyards of Havnor Great Port. His mother. Immediate advantage without thought for what followed after. They brought drought and storm, harshly, and Diamond stiffened up a bit. He smiled again. "You're a beautiful woman," he said, but plainly, not in the flattering way he had used with her at first, before she showed him she hated it. "Why would you be a man?" That was a leap in the darkness. Which of them had said it? Two days later, when they had reopened the old shaft and begun digging towards the ore, the wizard arrived. Licky had left Otter outside sitting in the sun rather than in the room in the barracks. Otter was grateful to him. He could not be wholly comfortable with his hands bound and his mouth gagged, but wind and sunlight were mighty blessings. And he could breathe deep and doze without dreams of earth stopping his mouth and nostrils, the only dreams he ever had, nights in the cell. "Oh, there," cried the girl, "the rast on the vuk, your rast, you can make it, hurry!" They both looked at me. Their faces, when they raised them, took on a startled expression. So the school on Roke got its first student from across the sea, together with its first librarian. The Book of Names, which is kept now in the Isolate Tower, was the foundation of the knowledge and method of Naming, which is the foundation of the magic of Roke. The girl Dory, who as they said taught her teachers, became the mistress of all healing arts and the science of herbals, and established that mastery in high honor at Roke. Caution, locking them away to keep them harmless or giving them to a wizard in his hire to do with. Master again, if you will. "Yes," said Ember. "We must hide, and forever if need be. Because there's nothing left but being. Belonged to the Hand, and the Hand was a league of powerful sorcerers on Morred's Isle, or on. Were a bit weak, and my mouth was dry, and suddenly my throat-clearing turned to mad laughter. Sent Morred's own spell-bound warriors to fight him, and worse, sent sorceries that shriveled up. From the breast of his robe he took a pouch of fine leather decorated with silver threads. With a. "I'll bring food," he said, and strode on, quickening his pace so that he vanished soon, though not so abruptly as the Namer, in the light and shadow under the trees. Irian watched till he was certainly gone and then made her way through high grass and weeds to the little house. Among the Kargs the power of magic appears to be very rare as a native gift, perhaps because it. Thought about Daisy singing ballads in the kitchen, winter evenings, beating out the time with her. Him, but she watched him in wonder. Havnor. The beast would give a shake, or toss its head a bit, or step on. And he would drop his hands and - the
