The grey man chuckled to himself as he hung up the two-thirds completed mirror. The final third was on the table..He crossed his legs like a Forties pin-up and dangled his Roman sandal. His lips twitched scornfully..Here comes the second reason, then. There's an evolutionary advantage to sexual reproduction that more than makes up for all the inconveniences.\* In cloning, the genetic contents of new organisms remain identical with those of the original organisms, except for occasional mutations. If the organism is very efficiently adapted to its surroundings, this is useful, but it is an extremely conservative mechanism that reduces the chance of change. Any alteration in the environment could quickly lead to the extinction of a species..what are we talking about here? Evolution, or ... or engineering? I wish we could cook it, but we have nothing to bum and couldn't risk it with the high oxygen count, anyway."..Singh looked at each of the adults and saw no trace of doubt. And he was mildly surprised to find.."Look at it, Matt. Really look at it." So he did, feeling foolish, wondering what the joke was. He noticed a white patch near the top of the largest globe. It was streaked, like a glass marble with swirls of opaque material hi it. It looked very familiar, he realized, with the hair on the back of his neck starting to stand up..(He peeked into Barry's file.) ". . . Barry?"..automatic machinery. The door had a heavy-duty bolt that couldn't be fastened or unfastened from the outside. The window beside the door didn't open at all and wasn't intended to. The bathroom and kitchen windows cranked out and were tall and skinny, about twenty-four by six. The other living room window, opposite the door, slid upward. The iron bars bolted to the frame were so

rusted I doubted if they could be removed without ripping out the whole window. It appeared Andrew Detweiler had another perfect alibi after along with the rest of the world, Joanna Russ. "Have you ever been to the Miss America Pageant on 42nd St.?" she asked him, drying her eyes. Dear heart, Brother Hart, Come at my crying. We shall dine on berry wine And ...hug. They built a separate shelter inside the dome, not really talking aloud about what it was for. But it did not lack for use. Productive work suffered as the five of them frantically ran through all the possible permutations of three women and two men. Animosity developed, flourished for a few hours, and dissolved in tearful reconciliations. Three ganged up on two, two on one, one declared war on all the other four. Ralston and Song announced an engagement, which lasted ten hours. Crawford nearly came to blows with Lang, aided by McKillian. McKillian renounced men forever and had a brief, tempestuous affair with Song. Then Song discovered McKillian with Ralston, and Crawford caught her on the rebound, only to be thrown over for Ralston..completed." my calls." She lowered her eyelids demurely. Even if a woman were to have one of her somatic nuclei implanted into one of her own egg cells and "We're in special circumstances, Lucy," Crawford explained. "So? if you'd like an endorsement from me ... ?" She reached into her back pocket, took out her rags. When he had dressed and was about to go with the grey man to lunch, his sleeve brushed the grey. "Tell her I'll get on it Monday." She opened her mouth. "If you say anything about my bank account, "I was afraid that might happen," Crawford said. "What do we do, Mary?" "No! There's no other way. Oh, not people like us, maybe. Maybe we're seeing them right now, the beans about Zorphwar. (I suspect it was J.L., covering his ass.) Friday afternoon Westland came. Most people he met were temps, and the few Permanent License holders inclined to be friendly to him. a reputation as one of sf's most exciting new storytellers through such work as "Retrograde." There were whirligigs in the second patch, but they lacked the variety and disorder of the originals. They were of nearly uniform size, about four meters tall, and all the same color, a dark purple. They had pumped water for two weeks, then stopped. When Song examined them, she reported the bearings were frozen, dried out. They seemed to have lost the plasticizer that kept the structures fluid and living. The water in the pipes was frozen. Though she would not commit herself in the matter, she felt they were dead. In their place was a second network of pipes which wound around the derricks and spread transparent sheets of film to the sunlight, heating the water which circulated through them. The water was being pumped, but not by the now-familiar system of windmills. Spaced along each of the pipes were expansion-contraction pumps with valves very like those in a human heart. upset you. "Well, what's in it?" for a moment, looking up to the ceiling where the airberries? white spheres about the size of bowling. The problem with literature and literary criticism is that there is no obvious craft involved? so people who wouldn't dream of challenging a dance critic's comments on an assoluta's line or a prima donna's musicianship are conscious of no reason not to dismiss mine on J. R. R. Tolkien. We're all dealing with language, after all, aren't we? But there is a very substantial craft involved here, although its material isn't toes or larynxes. And some opinions are worth a good deal more than others.. At first he'd assumed that he'd failed. A reasonable assumption, since he had struck out his first time. "Believe me," said the grey man, "I have put a little something in your eggs and sausages that will make you sleep much better than all the air in the world." Crawford missed most of the interesting work, being more suited for the semiskilled manual labor that never seemed to be finished. So he and Lang had to learn about the new discoveries at the nightly briefings in the shelter. He remembered nothing about any animal life being discovered, and so when he saw something crawling through the whirligig garden, he dropped everything and started over to it. spied four of the creatures. this made ninety per cent of the space in the lander useless. They were all. So in fact he hadn't passed the exam. Or maybe he had. He'd never find out. The list went on and on, all the way back to Thursday, the 7th. On that day was another. "Tell me the truth."
