But she will never be at his side again in this life..- At that moment a local alarm sounded inside the command post. Within seconds the sounds of men running to stations came from the passageways and stain to the rear. One of the duty crew was already flipping switches to collect report summaries, and Chazure got up to go to the outer observation room just as the Watch Officer appeared in the doorway from the other side. "There are troops approaching the lock," the Watch Officer announced. "Regulars-thirty or more of them."..Even his compliment fails to pump the air back into her deflated smile. "Regular comm channels are all down, to the ship everywhere. They have been for over an hour," Stanislaw said. "Emergency channels are restricted to priority military traffic." Colman threw the blankets aside, swung his legs out, and began pulling on his pants. "Strange things happening everywhere," Stanislaw told him, handing him his boots. "Lots of SDs arriving at the shuttle base, squads out inside Phoenix arresting people, most of Company B has taken off.. . I don't know what it's all about." "Oh, yes. I should have thought of that." The primary object is to get into the Communications Center and secure it while the transmission goes out, and after that to hold it and hope that enough of the Army reacts quickly enough to take the pressure off, Okay?" There were no questions, so Sirocco continued. "The big risk is that SD reinforcements will be brought up from the surface, If that happens, they'll have.one of them echoed back in memory. What would be the best way of going about it?"..Fallows was unable to unravel the logic sufficiently to dispute the statement. Instead, he shook his head. "It doesn't sound like it, I suppose." "Looks like it," Sirocco agreed. That's a ..."..Celia managed a smile. Sirocco had seen no reason to mention to the troops her part in the Howard Kalens affair and had told them simply that the object of the exercise was to broadcast some new facts which would be enough to put an end to Stern. "Fm not sure what Fm supposed to say," she told

Hanlon. "I'll never be able to thank you both enough. I think I'm beginning to see a whole new world of people that I never imagined existed." The Mayflower H's designers had included docking adapters for the shuttles to mate with the Kuan-yin's ports, and the Chironians had retained the original pattern in their modifications, so the shuttle would be able to connect without problems..The dog peers at something in the oily Muck gloom under the big truck. Instead of growling again, he.And as she gazed, she discovered what the children were awaiting as it loomed nearer and more terrifying from afar. The realization tightened her stomach. Even from fifteen years ago... it was she--for she had come with the Mayflower H. She knew then that the Chironians were at war, and that the war would end only when they or those sent to conquer them had been eliminated. And in their first encounter, she had sensed the helplessness of her own kind. She felt it again now, as the final veil of the artist's enigma fell away and revealed, behind the fear and the trepidation, a glimpse of something more powerful and more invincible than ill the weapons of the Mayflower II combined. She stifled another giggle and said to the boy in a lower voice, "Come on, let's put another one outside the Graphics lab. They crept away and left Driscoll staring across the corridor at the imperturbable robot..Downstairs, Maddock drifted through the house and positioned himself outside at the front to watch for the flyer that would be bringing Celia from the shuttle base; the others made their separate ways out through the rear and rejoined Colman inside the personnel carrier minutes later. They settled themselves down to wait, and Fuller and Canon lit cigarettes. "Still think it'll go okay, Sarge?" Stanislaw asked. "I could do a quick hair-job in there." He had brought the things with him, just in case.."Better late than never, I suppose," another commented, glancing at the painter, who was still there. The painter nodded but didn't reply..the dog might otherwise inspire him to be.."It certainly puts a new light on things," Lechat conceded. "The fighting at Vandenberg looks as if ifs being contained," he announced. - "Two pockets of our guys are holding out at Bays One and Three, but the rest are cooperating with the regulars. The regulars have pretty well secured the whole module already. Stormbel won't be getting any help from the surface through there..". "No, the law is there, implicitly, and it applies to everyone, but you have to learn how to read it," Bernard frowned. That hadn't come out the way he had intended. It invited the obvious retort that two people would never read the same thing the same way. The difference was that the Chironians could make it work. "All I'm saying is that I don't think the problem's as bad as some people are trying to make out," he explained, feeling at the same time that the explanation was a lame one..Gaulitz nodded emphatically. "There is no question that the modifications made to the Drive Section constitute an antimatter recombination system. The radiation levels and spectral profiles obtained from the crater on Remus are all consistent with its being caused by an

antimatter reaction. The evidence of gamma-induced transmutations, the distribution of neutron-activated isotopes, the pattern of residual-". "Half an hour." She smiled a promise and winked. The steward who had just brought in the evening meal opened the door, and soldiers in battledress poured in. Wellesley gasped as he saw Lechat with them. "Paul!" he exclaimed. "Where have you been hiding? You're the only one they didn't pick up. What-". "All set, except for springing Borftein and Wellesley," Colman said. "Now that we've got Malloy, those two would make the whole thing cast-iron." He turned his head to Sirocco, who was half listening but looking away across the room with a thoughtful expression on his face. "Had any more thoughts about that?" Colman asked. Sirocco responded distantly, "Borftein and Wellesley.". "Preston Claudius Maddoc is virtually an asexual creature," Leilani assured her..Micky said, "Leilani, for God's sake, is your mother always like that?the way I just saw her?".He crosses the threshold and eases the door shut behind him.. "Bluffing, hell." Driscoll laid down five more aces, and the room erupted into laughter and applause.
