

OF TENNESSEE PASSED AT THE EXTRA SESSION OF THE THIRTY THIRD GENERAL ASSEMBLY

"You're not going to meet anyone there but temps and various people who are out to fleece temps. With rare exceptions." She turned and padded hastily down the hallway, Nolan behind her. Together they entered the chemistry professor with his nose canted to the left. Very nice."Colman frowned to himself as his mind raced over the data's significance. No sane attacking force would contemplate taking an objective like that by a direct frontal assault in the center--the lowermost stretch of the trail was too well covered by overlooking slopes, and there would be no way back if the attack bogged down. That was what the enemy commander would have thought anyone would have thought. So what would be the point of tying up lots of men to defend a point that would never be attacked? According to the book, the correct way to attack the bunker would be along the stream from above or by crossing the stream below and coming down from the spur on the far side. So the other side was concentrating at points above both of the obvious assault routes and setting themselves up to ambush whichever attack should materialize.
