People didn't like me ... us, they were afraid. My father and mother too. The old witch-woman I told you about, she birthed us. She seemed always to be hanging around. When I was eight, my parents died in a fire. I think the witch-woman did it. After that I lived with her. She was demented, but she knew medicine and healing. When we were fifteen.. If both are fertilized, two children will be bom who are each possessed of genetic equipment different from the other. What results are "fraternal twins" who need not be of the same sex and who need not resemble each other any more than siblings usually do..Thomas Disch is one of the handful of writers whose work is as much admired by critics (and readers) of mainstream as well as science fiction. He wrote six fine stories for F&SF in the 1960s. Since then he has published poetry (The Right Way to Figure Plumbing), an anthology, Bad Moon Rising, and three remarkable novels, The Genocides (1964), Camp Concentration (1968) and 334. By trial and error, Smith has found the settings for Dallas, November 22, 1963: Dealey Plaza, 12:25 P.M. He sees the Presidential motorcade making the turn onto Elm Street. Kennedy slumps forward, raising his hands to his throat. Smith presses a button to hold the moment in tune. He scans behind the motorcade, finds the sixth floor of the Book Depository Building, finds the window. There is no one behind the barricade of cartons; the room is empty. He scans the nearby rooms, finds nothing. He tries the floor below. At an open window a man kneels, holding a high-powered rifle. Smith photographs him. He returns to the motorcade, watches as the second shot strikes the President. He freezes time again, scans the surrounding buildings, finds a second marksman on a roof, photographs him. Back to the motorcade. A third and fourth shot, the last blowing off the side of the President's head. Smith freezes the action again, finds two gunmen on the grassy knoll, one

Only the hopelessly insensitive find reality so pleasant as to never want to get away from it But pain-killers can be bad for the health, and even if they were not, I am damned if anyone will make me say that the newest fad in analgesics is equivalent to the illumination, which is the other thing (besides pleasure) art ought to provide. Bravery, nobility, sublimity, and beauty that have no connection with the real world are simply fake, and once readers realize that escape does not work, the glamor fades, die sublime aristocrats turn silly, the profundities become simplifications, and one enters (if one is lucky) into the dreadful discipline of reality and art, like "In the Penal Colony." I have tried to speak to general issues rather than "defend" my own criticism. Issues are, in any case, more important than personalities, although there is a (small) section of fandom which sees in aesthetic or political disagreement nothing but personal squabbling motivated by envy. It's not for me to judge how good my criticism is; if enough readers think it's bad, and the editor thinks so too, presumably hell stop printing it although writing book reviews (except for places like the New York Times) is underpaid, overworked, and a labor of love.
