I knew from its length that here was no ordinary wealthy merchant, but I was unprepared for the personage who presently stepped out and stood gazing at the Project with black blazing eyes. Those eyes burned right through Ike and Eli and Dan and me, as though we weren't even there, then swept upward, absorbing the entire Project with a single glance. It dawned on me finally, as I took in the small gold crown nestled in the black ringleted hair, the flared eyebrows, the fierce nostrils and the defiant jaw, that I was looking at the King.. "Nope. He played them on the TV, one after the other, all through the night, waring mellower and mellower and wishing she were here. Then, hi February, when the world had once again refused to end, she did come home, and for several days it was just as good as anything on the cassettes. They even, for a wonder, talked to each other. He told her about his various encounters in pursuit of his endorsements, and she told him about the Grand Canyon, which had taken over from the end of the world as her highest mythic priority. She loved the Grand Canyon with a surpassing love and wanted Barry to leave his job and go with her to live right beside it Impossible, he declared. He'd worked eight years at Citibank and accrued important benefits. He accused her of concealing something. Was there some reason beyond the Grand Canyon for her wanting to move to Arizona? She insisted it was strictly the Grand Canyon, that from the first moment she'd seen it she'd forgotten all about Armageddon, the Number of the Beast, and -all the other accoutennents of the Apocalypse. She couldn't explain: he would have to see it himself. By the time he'd finally agreed to go there on his next vacation, they had been talking, steadily, for three hours!. realized he had never been happier in his life.. On a day exactly eight months after the disaster, two discoveries were made. One was in the whirligig garden and concerned a new plant that was bearing what might be fruit. They were clusters of grape-sized white balls, very hard and fairly heavy. The second discovery was made by Lucy McKillian and concerned the absence of an event that up to that time had been as regular as the full moon.. He redesigned the whole device, built a prototype and tested it, tore it down, redesigned, built another. It was Christmas before he was done. It was a gentle complaint and, even more significant

he had not objected to the use of his nickname. He was being gentle with the condemned. "We worked on it around the clock. I even managed to get permission to turn over command temporarily. But the mock-ups they made Earthside didn't survive the re-entry. It was the best we could do. I couldn't risk the entire mission on a configuration the people back on Earth wouldn't certify." "What about contamination?" she asked. "What do you think that sterilization was for before we landed? Do you want to louse up the entire ecological balance of Mars? No one would ever be sure if samples in the future were real Martian plants or mutated Earth stock." "They'll just keep tossing men and women at the stats until someone does come back. The pavement ends a couple of miles past the freeway, and there's ten or fifteen miles of dirt road before the pavement picks up again nearly to Topanga. The road isn't traveled much, there are no houses on it, and people don't like to get their cars dusty. I was about in the middle of the unpaved section when Detweiler seemed to calm down. "If I remember you right, the second piece is on the top of a windy mountain so high the North Wind lives in a cave there." A similar case is that of H. G. Wells's *The Island of Dr. Moreau*, filmed with superbly demonic atmosphere as *Island of Lost Souls* in 1932. Charles Laughton, maybe the best actor yet to appear on film, gives an extraordinary performance as Dr. M., and Bela Lugosi captures the spirit of the beast men as the Speaker of the Law with the abhuman quality that characterized his *Dracula*. Now Burt Lancaster is one of film's most underrated actors, but his straightforward non-intellectual approach to the doctor role undermined the '70s trip to the Island; Richard Basehart didn't help matters by looking like a beneficent Old Testament prophet in the Lugosi role. But even Laughton and Lugosi would have been hard put to come across, with the later film's completely uninteresting script and camerawork..just assume I'm a chauvinist." The end result will be that though my clones, or some of them, might turn out to be valuable citizens of one kind or another, it would be very unlikely that any one of them would be another Isaac Asimov, and their production would not be worthwhile. Whatever good they might do would not be worth the reduction they would represent in the total gene variability of humanity..muscles protest to watch. She never broke the rhythm of them and her voice came in gasps between. Identical twins are very like each other and often display mirror-image characteristics. I don't have anything concrete except to say that well survive the same way humans have always survived: by staying warm, by eating, by drinking. To that list we have to add 'by breathing.* That's a hard one, but other than that we're no different than any other group of survivors in a tough spot. I don't know what we'll have to do, specifically, but I know we'll find the answers."..which is the other thing (besides pleasure) art ought to provide. Bravery, nobility, sublimity, and beauty.²¹⁶ "My red hair," said Amos, "is only on the top of my head. My clothes are ragged and dirty and will probably turn grey in no time with all that mist. Are there any bright-colored clothes on the ship, glittering with gold and gleaming with silk?" If the first trip had been an ordeal, this one was an agony: a frantic thrust through the sultry night on the steaming river, Moises sweating over the throttle as Nolan held Darlene's shuddering shoulders against the straw mattress in the stern of the vibrating launch. They made Manaos by dawn and roused Dr. Robales from slumber at his house near the plaza..wounds of his eyes. She turned away and said, "You may go out now. It is safe. He will not hunt you. She hooted a single derisory hoot. "I thought you said you liked music!" "You're arguing on the side of death. Do you want to die? Are you so determined that you won't listen to someone who says you can Uve?" GutS, LESTER DEL REY
