There will be order, safety, and peace." again. But he could not get up to walk to the wall, and presently the pain came back very sharp in. For there had been times when he felt that, as he had summoned her living, so dead she might summon him. The bond between them that had linked them and let her save him was not broken. Many times she had come into his dreams, standing silent as she stood when he first saw her in the reeking tower at Samory. And he had seen her, years ago, in the vision of the dying healer in Telio, in the twilight, beside the wall of stones. knowledge. I think I've come to the place I sought, but I don't know. Sea Otter sped south; they met summer squalls and choppy seas, but never a storm or a troublesome wind. They put off and took on cargo at ports on the north shore of O, at Ilien, Leng, Kamery, and O Port, and then headed west to carry the passengers to Roke. And facing the west Ivory felt a little hollow at the pit of his stomach, for he knew all too well how Roke was guarded. He knew neither he nor the weatherworker could do anything at all to turn the Roke-wind if it blew against them. And if it did. Dragonfly would ask why? Why did it blow against them?. years old. Celebrate it!" The new student cleaned out the henhouse and hoed the bean-patch, learned the meaning of the Glosses of Danemer and the Arcana of the Enlades, and kept his mouth closed. He listened. He heard what Dulse said; sometimes he heard what Dulse thought. He did what Dulse wanted and what Dulse did not know he wanted. His gift was far beyond Dulse's guidance, yet he had been right to come to Re Albi, and they both knew it. Of late, entering always deeper into the mysteries of a certain lore-book brought back from the Isle of Way by one of Losen's raiders, Gelluk had become indifferent to most of the arts he had learned or had discovered for himself. The book convinced him that all of them were only shadows or hints of a greater mastery. As one true element controlled all substances, one true knowledge contained all others. Approaching ever closer to that mastery, he understood that the crafts of wizards were as crude and false as Losen's title and rule. When he was one with the true element, he would be the one true king. Alone among men he would speak the words of making and unmaking. He would have dragons for his dogs.. Old Speech is endless, so are the runes.. "But the Summoner fought him both in body and spirit, and called to me, and I came. Together we fought against the will that would destroy us." and after a while she smiled a little. In the late spring he would go out in Hopeful. Otter had got control of his face and voice. He wiped his eyes and nose, cleared his throat, and said, "Might be a good idea. Come to Roke. Safer." His old master was sitting in the grass near the pond, eating an apple. Bits of eggshell flecked the ground near his legs, which were caked with drying mud. When he looked up and saw Ogion's sending he smiled a wide, sweet smile. But he looked old. He had never looked so old. Ogion had not seen him for over a year, having been busy; he was always busy in Gont Port, doing the business of the lords and people, never a chance to walk in the forests on the mountainside or to come sit with Heleth in the little house at Re Albi and listen and be still. Heleth was an old man, near eighty now; and he was frightened. He smiled with joy to see Ogion, but he was frightened. either place the way our parents or ancestors did. "Your majesty is sending forth his fleets," Early said to the staring old man in the armchair in the palace of the kings. "A great enemy has gathered against you, south in the Inmost Sea, and we are going to destroy them. A hundred ships will sail from the Great Port, from Omer and South Port and your fiefdom on Hosk, the greatest navy the world has seen! I shall lead them. And the glory will be yours," he said, with an open laugh, so that Losen stared at him in a kind of horror, finally beginning to understand who was the master, who the slave. might make a good prentice, here in the palace. She said the last honestly, though. The spoken name of a True Rune may be the word it signifies in the Old Speech, or it may be one of the connotations of the rune translated into Hardic. The names of commonly used runes such as Pirr (used to protect from fire, wind, and madness), Sifl ("speed well"), Simn ("work well") are used without ceremony by ordinary people speaking Hardic; but practitioners of magic speak even such well-known, often used names with caution, since they are in fact words in the Old Speech, and may influence events in unintended or unexpected ways. down again and tried to hold still. "Weak as women's magic, wicked as women's magic," you think I don't know what they say? So, "Mages can do more than that," the girl said. The Years of the Kings of Havnor were a period of prosperity, discovery, and strength, but in the last century of the period, assaults from the Kargs in the east and the dragons in the west became frequent and fierce. All spells use at least a word of the Old Speech, though the village witch or sorcerer may not clearly know its meaning. Great spells are made wholly in the Old Speech, and are understood as they are spoken. Standing on that hill, Medra had said, "There is a vein of water, just under where I stand, that will not go dry." They dug down carefully and came to the water; they let it leap up into the sunlight; and the first part of the Great House they made was its inmost heart, the courtyard of the fountain.
