Ordinary readers can skip, or read every third word, or quit in the middle. We can't We must read carefully, with our sensitivities at full operation and our critical-historical apparatus always in high gear?or we may miss that subtle satire which disguises itself as cliché?, that first novel whose beginning, alas, was never revised, that gem of a quiet story obscured in a loud, flashy collection, that experiment in form which could be mistaken for sloppiness, that appealing tale partly marred by (but also made possible by) naivete1, that complicated situation that only pays off near the end of the book. Such works exist but in order not to miss them, one must continually extend one's sensitivity, knowledge, and critical care to works that only abuse such faculties. The mental sensation is that of eating garbage, I assure you, and if critics* accumulated suffering did not find an outlet in the vigor of our language, I don't know what we would do. And it's the critics who care the most who suffer the most; irritation is a sign of betrayed love. As Shaw puts it:"I think I can answer that," McKillian said. The bathroom and kitchen windows cranked out and were tall and skinny, about twenty-four by six. The other living room window, opposite the door, slid upward. The iron bars bolted to the frame were so rusted I doubted if they could be removed without ripping out the whole window.
